SUMMARY

Full Stack Developer skilled in **JavaScript**, **React**, **Node.js**, **Python**, **Django**, **Express**, **MongoDB**, **C++**.
Experienced as a full-stack developer at Sagole and in the IDF, and have a great attention to detail and problem-solving skills.

EXPERIENCE

Full Stack developer, Sagole

2025 – Present

- Worked with **React.js** for frontend development and **Django** for backend services.
- **Refactored and rewrote significant portions of the codebase**, making improvements to the UI for better usability and performance, including **fixing over 200+ SonarQube high & critical issues.**
- Successfully **set up and managed the company's Jira** environment, streamlining project management and team workflows.
- Worked with **Microsoft Azure** for deployment and infrastructure management.
- Contributed to the company's SOC 2 compliance process by assisting in security and process audits using my knowledge in IT.

CISO, ONE City

2024 – 2025

- Managed municipal information systems, including networks, IP cameras, telephony, and Centrex switchboards.
- Provided professional opinions on IT infrastructure upgrades and strategic technology decisions to align with municipal goals.

Full Stack developer, IDF

2021 - 2023

- Developed and maintained a software solution using **JavaScript**, **jQuery**, **Python** (**Django**), and **SQLite**, supporting over 300 critical users.
- **Reduced system downtime by 50%** through real-time monitoring and automated issue detection and resolution.
- Handled up to **300 automated issue monitoring** daily under high-stress conditions.

PROJECTS

CV NEXT - https://github.com/magshimim-next/cv-next

2024 - 2025

- Volunteered as a **Frontend and DevOps Developer** on a community-driven CV-grading platform, collaborating with a team from Magshimim NEXT community
- Led key milestones, including a **migration from Digital Ocean to AWS**.
